

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
Ann Arbor Charter Township	Multi-Purpose	\$50,000.00	Conduct energy audits; implement energy efficiency (EE) retrofits; set up public EE educational efforts. Audits will Assess Township Hall/Fire Station Bldg.
Antrim County	Multi-Purpose	\$374,188.00	Establish a four-county Regional Energy Office to provide resources for energy audits and upgrades and secure funding for local government energy efficient retrofits.
Baraga County	Multi-Purpose	\$59,019.00	Develop an energy efficiency and conservation strategy, improve inefficient and underutilized space in the County Courthouse, and implement energy efficient improvements.
Bay County	LED Demonstration	\$230,299.00	The Light Emitting Diode (LED) project will retrofit interior and exterior metal halide fixtures.
Bay County	Multi-Purpose	\$357,554.00	CEECF is designed to update the Great Lakes Bay region's public infrastructure and community understanding of the variety of 21st century options available to power our community.
Berrien County	Multi-Purpose	\$88,000.00	Install a 10kW solar photovoltaic (PV) system which consists of a thin film building-integrated Michigan made PV laminate system.
Bessemer Township	Multi-Purpose	\$50,000.00	Provide energy efficient heating, ventilation and air conditioning system improvements in Township Hall.
Bridgeport Charter Township	Multi-Purpose	\$67,800.00	Replace light fixtures with energy efficient (EE) lighting. Replace windows and doors in Township Government Center building.
Calhoun County	Multi-Purpose	\$351,450.00	Implement performance contracting which will fund building improvements such as lighting retrofits, water conservation measures, building envelope improvements, boiler replacements, chiller replacements, and roof replacement.
Cannon Township	Multi-Purpose	\$75,464.00	Complete a pedestrian sidewalk connecting the Lake Bella Vista, Cannon Place and Cannon Farms neighborhoods with the Town Square Village Planned Unit Development, Cannon Township Center and the Cannon Trail.
Cass County	Multi-Purpose	\$181,600.00	Install solar hot water in the Cass County Jail and animal control facilities. Install a new boiler in the jail.
Charter Township of Delta*	Multi-Purpose	\$103,028.00	Build non-motorized pathway from W. Saginaw/ Creyts Road to Delta Mills Park.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
Charter Township of Lansing	Multi-Purpose	\$56,383.00	Install EE electronic fluorescent lighting ballasts; VFD motors for potable water utility facility; occupancy sensors; EE measures for HVAC system in municipal buildings. Install LED outdoor lighting fixtures for municipal parking lots.
Charter Township of Monitor	Multi-Purpose	\$50,000.00	Implement a lighting retrofit program in Monitor Township Hall.
Charter Township of Superior	Multi-Purpose	\$73,853.00	Implement energy conservation measures that were identified by professional consultants through energy audits of Superior Twp. Hall, Superior Twp Utility Dept. Admin. Bldg., and Cheney Academy of Willow Run School District.
Charter Township of Union	Multi-Purpose	\$67,865.00	Implement EE measures in lighting, insulation and elsewhere. Install multiple wind energy systems in partnership with Central Michigan University (CMU); research by students and professors would demonstrate efficacy of wind energy systems in moderate wind situations.
Charter Twp of Washington	Multi-Purpose	\$103,787.00	Replace and install streetlights with LED fixtures and poles.
Cheboygan County	Multi-Purpose	\$128,384.00	Implement energy conservation measures (including mechanical controls, lighting, water, building envelope, information technology, security, and facility renovation/addition) in the County Building.
City of Alma	Multi-Purpose	\$190,000.00	Implement energy audits, grants to small business and energy demonstrations.
City of Alpena	Multi-Purpose	\$66,473.00	Enter into a performance contract with grant funds going toward lighting retrofit and control, variable frequency drive conversion, boiler replacement, building automation system and commission/recommission in the City's public safety building.
City of Ann Arbor	LED Demonstration	\$218,712.00	Partnering with Ann Arbor Downtown Development Authority and Cree Inc. to fund nine additional applications of LED lighting technology in various city facilities. Leveraging \$84,149 in matching funds; will save 150,000 kwh.
City of Auburn Hills	Multi-Purpose	\$97,553.00	Install an energy management system (EMS) in 10 city facilities. Upgrade lighting fixtures in 6 of city buildings to fluorescent lights. Install electric meters in 6 facilities. Perform energy audit on Community Center building.
City of Bay City	Multi-Purpose	\$136,000.00	Develop a Bay City Energy Conservation and Renewable Energy Strategy, implement lighting upgrades in Bay City's historic City Hall building, augment the scope of residential energy efficiency upgrades provided through Low Income Weatherization Program.
City of Berkley*	Multi-Purpose	\$76,720.00	Purchase photocells for the City Hall and Library and insulate the historic City Hall and bolster the commercial recycling program to increase participation from 24% to 70%.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
City of Birmingham	Multi-Purpose	\$92,123.00	Implement LED lighting in public parking facilities in the Pierce Street parking structure.
City of Birmingham	LED Demonstration	\$32,997.00	Replace current high intensity discharge light (HID) fixtures with LED fixtures in the Pierce Street Parking Structure.
City of Charlevoix	Multi-Purpose	\$50,000.00	Replace metal halide lighting system in EMS bays with fluorescent and halide fixtures and motion detectors. Retrofit heating/ventilating in targeted city buildings.
City of Clawson	Multi-Purpose	\$71,474.00	Purchase and install energy savings devices for Clawson Public Library.
City of Corunna	LED Demonstration	\$50,000.00	Convert the balance of the 99 existing downtown HID streetlights to LED.
City of Crystal Falls	Multi-Purpose	\$50,000.00	Replace 125 or 25% of the City's existing high-pressure sodium streetlights with efficient induction lamps.
City of Dewitt	Multi-Purpose	\$161,805.00	Improve the energy efficiency of the heating, ventilation and air conditioning (HVAC) of the main buildings of the SCCMUA wastewater treatment plant.
City of Dowagiac	Multi-Purpose	\$52,361.00	Complete municipal building lighting and HVAC assessments and improvements. Perform wastewater treatment plant energy and process audit. Implement street and pedestrian lighting pilot project using both LED and magnetic induction fixtures.
City of East Lansing	LED Demonstration	\$112,500.00	Replace 125 incandescent streetlighting fixtures in a historical district with new LED technology, including utilizing accurate globes and poles.
City of East Tawas	LED Demonstration	\$50,000.00	Upgrade 100 streetlighting fixtures in the City to LED and educate residents on the benefits of LED via the City's website and personal contact.
City of Eastpointe	Multi-Purpose	\$132,000.00	Upgrade lighting fixtures in 5 buildings.
City of Flushing	Multi-Purpose	\$58,790.00	In Fire Hall: replace the existing boiler and install infrared heaters in the Truck Garage. In Department of Public Works: replace gas space heaters with infrared, sealed combustion and power vented heating tube units.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
City of Gaylord	LED Demonstration	\$50,000.00	Purchase and install 86 LED light fixture replacement kits to replace the existing 250 watt HPS lights in the city's main downtown district.
City of Gaylord	Multi-Purpose	\$50,000.00	Install new lighting fixtures in the DPW garage and various buildings at the Wastewater Treatment Facility.
City of Grand Blanc	LED Demonstration	\$82,008.00	Convert traffic lamps and crosswalk lamps to LED, install traffic cases and battery backup systems, and post a survey on website to educate residents, promote awareness, and allow for feedback.
City of Grand Blanc	Multi-Purpose	\$57,992.00	Install lamp posts with LED lamps, retrofit existing lamp posts with LED lamps, and post a survey on website to educate residents, promote awareness, and allow for feedback.
City of Grand Haven	Multi-Purpose	\$66,680.00	Evaluate and purchase vegetable oil-derived sources of diesel-alternative fuel for consumption at their 20 MW electricity generating diesel facility.
City of Grandville	Multi-Purpose	\$85,313.00	Replace boiler and retrofit air handler at Administration Building to reduce natural gas and electric demand.
City of Greenville	Multi-Purpose	\$59,483.00	Implement alternative energy production demonstration project using United Solar Ovonic solar roofing material. Provide renewable energy education through the schools, community college and community outreach.
City of Grosse Pointe Farms	Multi-Purpose	\$89,038.00	Replace the Grosse Pointe Farms Water Filtration Plant pumps with variable frequency drive pumps, reducing electricity consumption by \$104,258 per year. Cost of project is estimated at \$207,774.
City of Grosse Pointe Shores	Multi-Purpose	\$50,000.00	Upgrade lighting in four public facilities, replacing incandescent and inefficient fluorescent bulbs with more efficient fluorescents and upgrade incandescent exit signs to LEDs.
City of Grosse Pointe Woods	Multi-Purpose	\$81,860.00	Complete lighting upgrade and retrofit of City Hall, the Department of Public Works Garage, the Community Center, the Court and the Public Safety Building. The City plans to replace the cooling tower on City Hall.
City of Hamtramck	Multi-Purpose	\$98,369.00	Conduct building energy audits at the City Hall, Library, and Fire Station, make recommended improvements, develop an Energy Efficiency and Conservation Strategy, and install motion sensor lighting in City Hall.
City of Hancock	Multi-Purpose	\$47,450.00	Complete a feasibility study for the implementation of a district heating system, electrical conservation, and winterization for City buildings and the central business district.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
City of Hazel Park	Multi-Purpose	\$88,980.00	Upgrade lighting to T8 fluorescents and compact fluorescents and replace exit signs with LED exit signs.
City of Highland Park	LED Demonstration	\$140,000.00	Initiate an LED demo along Woodward Avenue.
City of Holland	LED Demonstration	\$113,000.00	Install LED pedestrian street lamps along the city's main commercial downtown corridor.
City of Houghton	Multi-Purpose	\$55,775.00	Implement LED lighting in parking structures.
City of Houghton	LED Demonstration	\$76,497.00	Replace outdated high intensity discharge light fixtures with LED fixtures in four municipal parking structures. Utilize literature and media materials on the benefits of LED technology as an educational component.
City of Huntington Woods	Multi-Purpose	\$104,000.00	Implement two pilot single-stream recycling projects. Complete pilot curbside recycling education project for businesses.
City of Iron Mountain*	Multi-Purpose	\$58,448.00	Replace the HVAC system in City Hall with an energy efficient model along with high efficiency furnaces, air-to-air heat pumps and new controls.
City of Jackson	Multi-Purpose	\$137,069.00	Install a new boiler system at the Police Department, insulate the Fire Department, and replace registers with energy efficient ones, in accordance to the comprehensive energy assessments completed at the facilities.
City of Lathrup Village	Multi-Purpose	\$50,000.00	Upgrade lighting at City Hall, and implement a variety of low cost upgrades per the city's Rebuild Michigan audit. Conduct a community outreach strategy. Finalize strategic energy plan for City Hall and Community Center.
City of Lincoln Park	LED Demonstration	\$30,748.00	Replace lights with LED technology, educate citizens about LED technology, and work with Greenovation.tv to craft a subset of their online station dedicated to LED projects.
City of Madison Heights	Multi-Purpose	\$124,061.00	Retrofit lights in 4 buildings, enhance insulation for 1 building, re-lamp mercury vapor fixtures, and replace an air conditioning unit and doors at City Hall.
City of Marshall	Multi-Purpose	\$56,366.00	Upgrade energy efficiency in parking structure lighting fixtures. Replace existing lights with induction type for the drive aisle through an agreement between Downtown Development Authority and Oaklawn Hospital.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
City of Mt Pleasant	Multi-Purpose	\$114,261.00	Construct a non-motorized pathway from Central Michigan Univeristy (CMU) to downtown Mt. Pleasant. Install sidewalks, bike lanes and LED pedestrian lights.
City of Munising	Multi-Purpose	\$50,000.00	Install new pumps on chiller, install a new furnace and upgrade lighting technologies at the ice arena.
City of Niles	Multi-Purpose	\$68,780.00*	Retrofit of two municipal-owned buildings in the City of Niles. Remove old boiler/replace with 2 energy efficient boilers. Install energy efficient lighting fixtures.
City of Oak Park	Multi-Purpose	\$127,148.00	Replace 3 HVAC units and compressors on two units in the City Library and Community Center. Refurbish 3 AHUs in Library and Community Center. Install Energy Management Controls System in Library and Community Center.
City of Port Huron	Multi-Purpose	\$128,252.00	Replace 2 blowers in the wastewater treatment plant secondary building.
City of River Rouge	Multi-Purpose	\$50,378.00*	Conduct a complete lighting upgrade and retrofitting of City Hall and the Library and tune up and calibrate pneumatic temperature controls and air handlers of the City Hall heating, ventilation and air conditioning system.
City of Riverview	Multi-Purpose	\$558,401.00	For 9 communities, 1) complete energy efficient retrofits of government buildings; 2) create an energy auditing program to encourage energy efficient retrofits within the coalition of communities; and 3) develop a regional energy efficiency strategy.
City of Romulus	Multi-Purpose	\$105,992.00	Develop an energy efficiency strategy, institute a commercial energy audit program with building owners contributing 50% of the cost, and implement energy efficiency programs for buildings and facilities.
City of Sandusky	Multi-Purpose	\$50,000.00	Purchase and install a new energy efficient heating system for the Village Hall, install LED lights, and conduct education, information, and demonstration activities.
City of Sault Ste Marie	Multi-Purpose	\$163,609.00	Replace boiler systems in the City/County Building and in the new Sault Ste. Marie City Hall.
City of South Lyon	Multi-Purpose	\$67,991.00	Implement a lighting upgrade and retrofit to 5 buildings and have the equipment of the wastewater treatment facility examined and analyzed.
City of Southgate	Multi-Purpose	\$98,000.00	Replace outdoor parking lights with LED, replace interior lights with T8 fixtures, and implement solar-powered stop signs and directional traffic signs in the complex.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
City of Sturgis	Multi-Purpose	\$67,892.00	Develop a comprehensive program to increase energy efficiency and implement various energy efficiency measures in the City's buildings as part of an energy performance contract.
City of Swartz Creek	Multi-Purpose	\$50,861.00	Upgrade the HVAC system in the Public Safety Building and upgrade the control system.
City of Three Rivers	Multi-Purpose	\$56,660.00	Upgrade the energy efficiency of City Hall and the Library/Commission on Aging (COA) buildings. Both buildings will receive lighting upgrades, and the Library/COA will also receive building envelope measures.
City of Troy	LED Demonstration	\$250,000.00	Build a new LEED-Silver certified Transit Center, which will include extensive use of LED lighting. Interpretive educational displays on LED lighting will be provided both inside and outside the Center.
City of Warren	LED Demonstration	\$171,895.00	With Macomb County, retrofit lights with LED technology and launch an educational program and other activities to increase public awareness of LEDs.
City of Wayne	Multi-Purpose	\$88,124.00	Implement HVAC upgrades and lighting upgrades for City Hall, including T8 lamps, LED exit signs and exterior LED lights.
City of Williamston	Multi-Purpose	\$50,000.00	Install a water-to-refrigerant heat pump to capture heat in the wastewater treatment plant effluent to heat and cool the plant's administration building. Capture methane gas generated throughout the wastewater treatment process to generate electricity.
City of Wixom	Multi-Purpose	\$75,413.00	Reduce lighting controls from 10 to 1 to synchronize exterior lighting, convert lights to LED, and educate and inform the public through website and other media.
Clare County	Multi-Purpose	\$147,325.00	Install lighting retrofits to reduce energy consumption by 106,496 watts. Develop multi-county energy efficiency plan.
Clean Energy Coalition	Technical Assistance	\$58,300.00	Working in partnership with state grant administrators to assist EECBG grantees throughout the state with their projects, providing consistent project metrics, promoting energy saving best practices and facilitating communication among EECBG communities.
County of Charlevoix	Multi-Purpose	\$128,707.00	Replace five boilers in County buildings with two high-efficiency condensing boilers.
County of Clinton	Multi-Purpose	\$294,696.00	Reduce energy consumption and greenhouse gas emissions related to the operation of the courthouse and jail through implementing four energy efficiency strategies from the County's June 2009 technical energy analysis.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
County of Marquette	Multi-Purpose	\$274,379.00	Implement findings from prior energy audit. Conduct comprehensive TEA on 7 buildings, identify energy use deficiencies in low/moderate income homes, and provide code training to County building staff on MI Energy Code.
County of Monroe	Multi-Purpose	\$612,543.00	Install and upgrade equipment related to HVAC systems and controls, conduct a municipal energy audit, and expand commercial recycling efforts to schools countywide.
County of Muskegon	Multi-Purpose	\$537,945.00	Enter into a performance contract to upgrade and replace lighting, water fixtures, building envelope, controls, mechanical systems, windows and traffic signals. The County will also procure a community outreach/education video.
County of Newaygo	Multi-Purpose	\$216,369.00	Purchase technology for The Stream, a 13,000 SF satellite work center and business center aimed at reducing commutes to work and education.
Delhi Charter Township	Multi-Purpose	\$112,847.00	Conduct technical energy analysis of community services center. Update HVAC controls. Replace 28 parking lot metal halide lamps with LED lamps. Conduct public relations and education program of the benefits of LED lighting conversion.
Dickinson County	Multi-Purpose	\$132,626.00	Replace lighting for the apron, the runway end indicator light, and parking lot of the Ford Airport (Kingsford, MI) with Federal Aviation Administration approved LED lamps.
Eaton County	Multi-Purpose	\$420,000.00	Install solar panels, outdoor LED lighting, building envelope improvements and other cost-effective measures to reduce energy consumption by 20%. Community Outreach will be used to educate Eaton County residents on ways to reduce home energy use.
Emmet County	Multi-Purpose	\$153,672.00	Implement energy efficient upgrades to the Recycle Facility Expansion to facilitate processing of hard-to-recycle plastics.
Garden City	Multi-Purpose	\$115,232.00	Upgrade windows and communicate implemented energy savings measures to the community.
Genoa Charter Township	Multi-Purpose	\$94,919.00	Install five Windspire wind energy conversion systems and connect to the Genoa Charter Township Hall.
Grand Traverse County	Multi-Purpose	\$353,575.00	Complete lighting improvements for nine city and county facilities. Replace boiler and install solar panels for the Civic Center, variable frequency drives (VFDs) for City Sewage Treatment Plant, and develop a climate action plan.
Grand Traverse County	LED Demonstration	\$250,000.00	Purchase and install up to 355 LED lighting systems across three applications: streetlighting, parking areas, and building lighting. Project will include a strong outreach and education component.
Groveland Township	Multi-Purpose	\$53,700.00	Distribute 512 energy weatherization kits to resident homeowners.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
Highland Township	Multi-Purpose	\$173,833.00	Retrofit of fluorescent and mercury vapor lamps with induction lighting. Complete TEA to base an energy plan on. Implement project education campaign. Fund additional energy efficiency projects from energy plan.
Houghton County	Multi-Purpose	\$163,773.00	Develop a feasibility study for a region-wide teleconferencing network.
Independence Township	Multi-Purpose	\$221,377.00	Create energy efficiency demonstration area (The Green Triangle) for northwest Oakland County, including energy audits, energy efficiency retrofits, and energy efficiency education for the public.
Ishpeming Township	Multi-Purpose	\$90,854.00	Purchase a four auger truck-mounted mixers and a dry compost screener to aid in the recycling of wastewater biosolids into an organic soil amendment.
Kalamazoo County	Multi-Purpose	\$508,346.00	Implement various energy conservation measures as part of performance contract.
Lake Charter Township	Multi-Purpose	\$50,000.00	Replace mercury vapor, metal halide, and high pressure sodium light fixtures with new fluorescent fixtures at regional water treatment plant. Offer customers subsidies to help defray the cost of a residential energy audits.
Lenawee County	Multi-Purpose	\$414,082.00	Replace lighting systems, HVAC, and energy management system; implement building envelope improvements and water conservation measures; and create printed materials and update the website to educate and inform the public.
Manistee County	Multi-Purpose	\$125,000.00	Conduct energy audits of local government buildings and implement a County-wide recycling program.
Meridian Township	LED Demonstration	\$50,000.00	Downtown Okemos streetlight project; install 20 historic LED light fixtures and poles in downtown development zone; replace HPS and cobra-head luminaries.
Michigan Energy Options	Technical Assistance	\$20,000.00	Working in partnership with state grant administrators to assist EECBG grantees throughout the state with their projects, providing consistent project metrics, promoting energy saving best practices and facilitating communication among EECBG communities.
Michigan Municipal League Foundation	Technical Assistance	\$58,296.00	Working in partnership with state grant administrators to assist EECBG grantees throughout the state with their projects, providing consistent project metrics, promoting energy saving best practices and facilitating communication among EECBG communities.
Midland County	Multi-Purpose	\$189,182.00	Install the County's first renewable energy project: 20kW of made-in-MI solar energy installations on the roof of the Pinecrest Residential Facility. Highlight the installations as a demonstration of MI's solar industry, including sharing data.
Missaukee County	Multi-Purpose	\$84,508.00	Implement lighting and HVAC improvements to County building.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
Montcalm County	Multi-Purpose	\$218,027.00	Provide a Material Conservation Program that provides a mobile recycle center program, and tire and electronic recycling collections.
Oceola Township	Multi-Purpose	\$68,912.00	Complete energy efficiency retrofits to the Township complex. Energy audits will be completed for each building to establish the basis for the proposed improvements.
Oshemo Charter Township	Multi-Purpose	\$97,169.00	Connect seven segments of non-continuous sidewalk along West Main Street. 17,250 ft of sidewalk will be constructed.
Pittsfield Charter Township	Multi-Purpose	\$138,389.00	Complete an energy audit on Robert A. Lillie Admin Bldg, energy efficiency retrofits, and energy efficiency education component for public.
Presque Isle County	Multi-Purpose	\$470,883.00	Install energy efficient lighting and HVAC systems in County and Township buildings, such as upgrading lights to T8 or T5s, occupancy sensors, programmable thermostats, new boilers and new windows.
Ray Township	Multi-Purpose	\$50,000.00	Obtain an inspection of 3 buildings, improve insulation and lighting fixtures in 3 buildings, implement building envelope sealing, and upgrade heating, cooling and water heating system in 1 building.
Saginaw County	Multi-Purpose	\$434,433.00	Conduct energy audits on 8-10 Saginaw County municipal facilities and up to 10 municipal facilities of partner cities and townships within the County. Develop an EE, Conservation, and Renewable Energy Strategy, create revolving loan fund for upgrades.
Schoolcraft County*	Multi-Purpose	\$64,900.00	Conduct energy audits within the district.
Shiawassee County	Multi-Purpose	\$302,014.00	Enter into a performance contract to install multiple energy saving measures at existing County buildings, including lighting retrofits to several buildings, building envelope improvements, and other mechanical retrofits.
St Joseph County	Multi-Purpose	\$267,153.00	Install solar electrical system and a solar hot water system at the County Jail; passive solar shower system at Cade Lake campground; and energy efficient washers and dryers in Jail. Perform energy audits at Jail and Rawson' Kings Mill Park facility.
Tuscola County	Multi-Purpose	\$489,990.00	Develop a regional non-motorized transportation strategy. Plan and design the extension of an existing non-motorized transportation project. Energy Efficiency retrofits of county and local municipal buildings. Retrofit street-lighting with LEDs.
Village of Bellaire	Multi-Purpose	\$50,000.00	Upgrade streetlighting, install new equipment at the Waste Water Treatment Plant, and upgrade lighting in municipal buildings.
Village of Carsonville*	Multi-Purpose	\$33,636.00	Convert existing mercury vapor street lights to LED luminaries.

* Pending State Administrative Board Approval

State of Michigan- Funded EECBG Projects

Grantee	Project Type	Amount Funded	Project Description
Village of Dexter	Multi-Purpose	\$50,000.00	Retrofit lighting and conduct educational and informational activities for residents.
Village of Dundee	Multi-Purpose	\$50,000.00	Construct an 8-foot wide, 1,540 linear foot multi-use pathway on M-50. Develop zoning regulations to promote energy efficiency.
Village of Lake Orion	Multi-Purpose	\$50,000.00	Retrofit 50 streetlights with LED lamps in downtown Lake Orion as an expansion of an existing program that retrofitted 42 lights.
Village of Pinckney	Multi-Purpose	\$50,000.00	Partner with Michigan GREEN to distribute 475 energy weatherization kits to our residents. Evaluate savings.
Village of Spring Lake	LED Demonstration	\$48,804.00	Retrofit 42 Sternberg fixtures along M-105 in downtown Spring Lake.
WARM Training Center	Technical Assistance	\$59,400.00	Working in partnership with state grant administrators to assist EECBG grantees throughout the state with their projects, providing consistent project metrics, promoting energy saving best practices and facilitating communication among EECBG communities.
Williamstown Township	Multi-Purpose	\$75,384.00	Obtain energy audits and retrofits for township buildings and demonstrate LED and solar lighting. Amend Williamston Twp Master Plan and Zoning Ordinance to increase non-motorized and public transport and LEED new construction.

* Pending State Administrative Board Approval
